

Unit 2 | Chapter 3: The Blueprint (Research & IA)

Learning Targets:	
❖ Technical: I can distinguish between Qualitative and Quantitative research and synthesize data into User Personas and Empathy Maps. (NV 4.3.2) ❖ Technical: I can architect Information Architecture through Sitemaps and design Mid-Fidelity Wireframes to plan layout and hierarchy. (NV 4.3.3) ❖ Technical: I can apply Atomic Design principles and reading patterns (F/Z) to optimize user flow and cognitive load. (NV 4.3.1) ❖ Technical: I can implement foundational SEO strategies, including the "Holy Trinity" of on-page tags and keyword strategy. (NV 4.4.4) ❖ Employability: I can demonstrate analytical reasoning by performing SWOT analyses and Competitive Matrices to identify industry feature gaps. (WRS 1.2.3) ❖ Employability: I can demonstrate probity and professional decorum by writing User Stories with clear Acceptance Criteria and prioritizing scope using the MoSCoW method. (WRS 1.1.2, 1.1.4)	
Compelling Question:	
How does a developer move from abstract user needs to a concrete structural blueprint while balancing business goals and technical feasibility?	
Score	Performance Indicators
4.0	I can: ☐ Architect a multi-layered design system utilizing Atomic Design to create reusable components across a complex application, demonstrating elite cognitive flexibility. (NV 4.3.1, WRS 1.2.3) ☐ Formulate a "Blue Ocean" product strategy by cross-referencing a Competitive Matrix and SWOT analysis to propose innovative, uncontested features. (WRS 1.2.3) ☐ Evaluate and justify the technical trade-offs of an MVP release vs. future updates using data-backed MoSCoW prioritization. (WRS 1.1.4)
3.5	In addition to score 3.0 performance, partial success at score 4.0 content.
3.0	I can: ☐ Successfully create a Sitemap and a corresponding Mid-Fidelity Wireframe for a multi-page website. (NV 4.3.3) ☐ Define a User Persona and map their sensory experience using an Empathy Map. (NV 4.3.2) ☐ Write User Stories in the standard format with functional Acceptance Criteria 

	(Given/When/Then). (WRS 1.1.4) ☐ Optimize a page for SEO by correctly implementing Title, Meta, and H1 tags based on long-tail keyword research. (NV 4.4.4) ☐ Demonstrate intrinsic motivation and diligence by completing complex planning milestones on schedule. (WRS 1.1.1)
2.5	No major errors or omissions regarding score 2.0 content, and partial success at score 3.0 content.
2.0	I can ☐ Define common terminology and identify syntax: (WEB.4.2.1) ☐ Qualitative vs. Quantitative, Persona, SWOT, Sitemap, Wireframe, Atomic Design, F/Z Patterns, MoSCoW, MVP, SEO, H1, Meta Description, Acceptance Criteria. ☐ Identify the importance of punctuality (WRS 1.1.1), probity and ethical adherence (WRS 1.1.2), professional decorum in team communication (WRS 1.1.4), inclusive collaboration (WRS 1.1.5), and analytical reasoning (WRS 1.2.3).
1.5	Partial success at score 2.0 content, and major errors or omissions at 3.0.
1.0	With help, partial success at score 2.0 and score 3.0 content.
0.5	With help, partial success at score 2.0 but not at score 3.0 content.
0.0	Even with help, no success or attempt made.
