

Unit 4 | Chapter 6: Intro to CSS (The Clothes)

Learning Targets:	
❖ Technical: I can demonstrate the correct use of CSS syntax (Selector, Property, Value) and implement internal, external, and inline styles. (NV 5.2.1) ❖ Technical: I can target elements with precision using Tag, Class, and ID selectors while understanding the rules of Specificity and Inheritance. (NV 5.2.2) ❖ Technical: I can manipulate the CSS Box Model (Content, Padding, Border, Margin) to control spacing and layout. (NV 5.2.3) ❖ Technical: I can apply visual styles including color theory (Hex, RGB), typography (Google Fonts), and background properties. (NV 5.2.1) ❖ Employability: I can demonstrate systematic resolution and analytical reasoning to debug layout shifts and selector conflicts in the browser console. (WRS 1.2.3) ❖ Employability: I can demonstrate professional decorum by organizing stylesheets with comments and maintaining a consistent coding style. (WRS 1.1.4)	
Compelling Question:	
How does a developer use Cascading Style Sheets to transform a raw document into a branded, professional, and visually engaging user interface?	
Score	Performance Indicators
4.0	I can: ☐ Architect a comprehensive design system using CSS Variables (--custom-properties) to ensure global brand consistency across a project, demonstrating high-level cognitive flexibility. (NV 5.2.1, WRS 1.2.3) ☐ Resolve complex specificity conflicts (The Cascade) in a large stylesheet without relying on !important, demonstrating advanced analytical reasoning. (NV 5.2.2, WRS 1.2.3) ☐ Create advanced visual effects using CSS gradients, box-shadows, and transitions to enhance the user experience while maintaining strict probity in asset usage. (WRS 1.1.2)
3.5	In addition to score 3.0 performance, partial success at score 4.0 content.
3.0	I can: ☐ Link an external stylesheet and successfully style a multi-page site using Classes and IDs. (NV 5.2.1, 5.2.2) ☐ Correctly implement the Box Model on multiple elements to create professional spacing and containment. (NV 5.2.3) ☐ Integrate third-party typography (Google Fonts) and utilize Hex/RGB color 

	codes to match a specific UI style guide. (NV 5.2.1) ☐ Demonstrate intrinsic motivation and diligence by refining visual styles until they match a design wireframe perfectly. (WRS 1.1.1) ☐ Use professional CSS comments to label sections of the stylesheet (e.g., Typography, Navigation, Footer). (WRS 1.1.4)
2.5	No major errors or omissions regarding score 2.0 content, and partial success at score 3.0 content.
2.0	I can ☐ Define common terminology and identify syntax: (WEB.4.2.1) ☐ Selector, Declaration, Property, Value, Cascade, Specificity, Box Model, Padding, Margin, Border, Hex Code, Serif vs. Sans-Serif. ☐ Identify the importance of punctuality (WRS 1.1.1), probity in source code (WRS 1.1.2), professional decorum (WRS 1.1.4), and applying analytical reasoning to syntax (WRS 1.2.3).
1.5	Partial success at score 2.0 content, and major errors or omissions at 3.0.
1.0	With help, partial success at score 2.0 and score 3.0 content.
0.5	With help, partial success at score 2.0 but not at score 3.0 content.
0.0	Even with help, no success or attempt made.
